[Tonny] Happy New Year. Clear and cold, about zero this morning. Did chores here and at Frank's, had Lewis help me put Mrs. Fay's stove from the entry up to Uncle Will's garage and then put a tier of wood in the entry. The Barometer reads as high today as it did the storm of the big tide two Novembers ago. 31.15.

Tonny & Annie Calderwood's 1947 Diary

Jan. 2, Thursday	[Tonny] Snowed during night and some today. Sleeting tonight. Delivered milk and worked at Frank's barn on way home. Put the nine remaining lambs in the horse stalls so I can feed them separately from the sheep, and put the four sheep I'm going to kill into the colt pen so I can _____ them. Had to haul the school tree corner tonight as Harvey slid into the ditch. Nan darned all day.
Jan. 3, Friday	[Tonny] Sleeted during night. Rained this morning, changing to snow. Very hard walking as the crust wouldn't hold up a grown person. Did chores here and at Frank's. It was a nice walking on the road after the snow plow came down so Nan walked over to Frank's and back with me. It was beautiful through the woods as the hardwoods were bent down with sleet and the branches of the spruces hung nearly straight down.
Jan. 4, Saturday	[Tonny] Fair. Repaired the stovepipe in the shanty, started a fire and made a start at cleaning the place up. Did chores at Frank's on way uptown to deliver milk this P.M.
Jan. 5, Sunday	[Tonny] Cold but clear. over to Frank's to do chores as soon as I finished here. Came home, repaired the ice cream freezer and froze ice cream. Lawrence Grant and his family came about 12:30. I cut both Austin's and Squire's hair. Then we had ice cream. I did chores and they stayed to supper with us.
Jan. 6, Monday	[Tonny] Beautiful day. Nice and calm in the afternoon but I didn't get back from delivering milk in time to go to the island for the sheep. The "King" was just taking his sheep up to Aunt Ann's so I went up and got out two sheep that had been running with his.
Jan. 7, Tuesday	[Tonny] Cloudy, heavy breeze. Thawed a little. Took Nan up to wash. Washed up the milk things and then churned two churnings. Made a feed rack to go in the colt pen at Frank's. Uptown after Nan and Pat.
Jan. 8, Wednesday	[Tonny] Milk delivery.
Jan. 9, Thursday	[blank]
Jan. 10, Friday	[Tonny] Worked spare time on income tax report. Delivered milk.
Jan. 11, Saturday	[Tonny] Light snow stopping this P.M. Calm. Harvey came down and helped me take some hay to the lambs on Calderwood's Island. Found the whole 22 okay. There is so much crust down there that I've got to take them off.
Jan. 12, Sunday	[Annie] Delivered milk around noon. Got stuck twice up to Lester's and once down to Harvey's and had a blow out in between. Did chores at Frank's on way home. Snow plow got stuck over back of hen houses. Stan Quinn hauled them out.
Jan. 13, Monday	[Annie] I went up and helped wash clothes. Didn't dry very fast. Tonny took car to garage as she was dragging on the wheel and skipping like everything got her fixed and came down to Alta's to dinner. We started home soon afterwards and the car was only running on four cylinders. Took her back to Garage. While they were working on her, I went up and called on Orilla. Played one game of cribbage with her. She is getting some better.

Tonny & Annie Calderwood's 1947 Diary

Jan. 14, Tuesday	[Annie] Today's Birthdays: Frank Beverage 86 yrs. old. Rather a raw day, not much wind. Tonny got Lester and Harvey to help him get his lambs off Calderwood Island. They had good luck and not too much trouble. Lester landed them at Uncle Will's bait house and Harvey & Tonny drove them over to Frank's. They are all in pretty good shape. I delivered milk and ironed my plain clothes.
Jan. 15, Wednesday	[Annie] Raining. Tonny worked on the skim milk and cream about all day. We had four churnings. Uptown to get a bag of dairy ration before doing chores at Frank's. [Tonny] Lewis, Alta, Mother and Charles Bradley down this evening. Had a nice time.
Jan. 16, Thursday	[Annie] Delivered milk and did chores at Frank's on way home. To bed by 7:30. Tonny has a cold.
Jan. 17, Friday	[Annie] Malcolm helped Tonny pill the sheep today. [Tonny] Pilled 67 sheep and 38 lambs. Used 250 pills. Up to Harvey's this evening to play Michigan. Pretty icy on the roads.
Jan. 18, Saturday	[Tonny] Delivered milk. Came home, put the trailer together and hauled Babes' heifer down to Malc's to be bred. It really was cold by the time I got home. Nan had the chores done at Frank's for me.
Jan. 19, Sunday	[Tonny] Clear and cold. Went to church. A Mr. Sawyer preached. Let the sheep out for first time on our way home. Slid down the big hill in the field when we fed up the sheep.
Jan. 20, Monday	[Tonny] Rainy. Oiled up this morning and hauled a cow from Geo. Beverage's down to Malcolm's for Malcolm. Was wet some by the time I got home. Dried out and then delivered milk. Had a leak come in a forward tire. Foster repaired that and we were homeward bound down Mrs. Pease's hill when rear spring shackle broke, letting one side of the body down onto the wheel. Started to walk home when Emery H. came along and gave us a ride. It is raining hard tonight.
Jan. 21, Tuesday	[Tonny] Borrowed Uncle Will's car to take Nan up to wash. Rain last night took almost all the snow off and a lot of the ice. Fed up the sheep at Frank's and used Black Leaf 40 on the eleven lambs I have shut off by themselves. Back uptown after Nan. Expected grain but the boat didn't bring it as the wind blew so.
Jan. 22, Wednesday	[Tonny] Cold and windy. Walked up to Frank's to get truck after doing chores. Came home, had lunch and went uptown to deliver. Fed sheep on way up. Grain came tonight but the weather is so cussed cold and disagreeable that we just loaded the grain aboard of Malc's truck and he is bringing it down tomorrow.
Jan. 23, Thursday	[Tonny] 0° this morning. Clear and cold. Malc brought my grain down this noon. Have replenished the tier of wood in the shed and thrown the woodpile up together.
Jan. 24, Friday	[Annie] 25 above this morning. Raining. Delivered milk.

Tonny & Annie Calderwood's 1947 Diary

Feb. 9, Sunday	[Tonny] Not awfully cold but very windy. Harvey didn't get down to go through my chores with me until I was feeding up hay. When we came out of barn he said he had to call on Uncle Will a minute. He found the door locked so I went in through the shed. We found Uncle Will in bed gone. Had the doctor come right down and he said he went right out in his sleep soon after he went to bed last night. Joe Headley had to have a boat bring him up around as it blew so hard he couldn't get across the ferry. Lewis brought he and Herman down. Harvey delivered my milk and then came back down. I called Aunt Viola this morning, and tonight after Prudy and Sal came down we called Mercedes.

We delivered milk and then met at the church with Mother, Nellie and Harvey to take the tags off the flowers. The flowers were beautiful. Only a small number of people at the funeral. Bearers were James Pendleton, Oscar Waterman, Edward Beverage, Frank Waterman, Ronald Gillis, and Elmer Carver. Rev. Mitchell from Vinalhaven conducted the service. Closed with the poem "L'Envoie" by Rudyard Kipling. Lewis and Alta were down this evening.
Feb. 12, Wednesday	[Tonny] Nice day. Wrote out Uncle Will's obituary this A.M. and we took it uptown for family inspection this noon. Had dinner with Harvey and Shirley. Didn't get home until after the boat came. Indian Point Farm is indeed empty without Uncle Will.
Feb. 13, Thursday	[Tonny] Delivered milk, came right home. Put hasps [?] and padlocks on the upper shop door on the wood house and on the kitchen. Put a sliding bolt on the front door. Hauled the gasoline rope and some other stuff up from the boat house and put it in the top of the shop. Got our checks ready to send over to the bank and wrote to Mrs. Fay thanking her for the flowers and telling her about Uncle Will. Also put padlock on garage door.

Feb. 15, Saturday	[Tonny] Built fires in Uncle Will's house this A.M. before going over to Frank's to do chores. Kept on up to the garage as the left forward tire had a bad leak in it. It was ruined so I bought two Goodyear tires of Frank that came off of his Chev. Had only used them about six weeks last fall when he put on snow tires. Bought the two for \$30.00. As soon as dinner we went up to Uncle Will's and cleaned up the two pantries and kitchen. Brought his personal papers down here to go through them. Uptown with the milk at 4:00. Had just enough gas left on Elsie to back into garage after spreading last load. Walked home. We went up to Don's and Cynthia's to their wedding anniversary party this evening. Jim & Mercedes, Barbara, Austin and Lawrence & Alice there. We had a nice time. Pat went with us.
Nov. 27, Thursday	[Tonny] Thanksgiving Day. Nice Day but cool. Snow still on ground. After doing chores, went over to Tumbledown. Washed up the lime spreader at the brook and left it in front of the garage to dry. Took the tedder rake and mower out of barn floor and took them up to Mrs. Pease's barn. Also took the hay rack up. Brought the sulky plow down from Mrs. Pease's and put it in the garage. Oiled up the lime spreader and put that in the garage too.
